ACTIVITIES UNDERTAKEN-

Dry Ration Distribution program NYEF - Gram Jagat-2019-20

The first wave of COVID in 2020 has devastating impact on the health, well-being and livelihood of individuals and families. Almost all families have experienced long periods of illnesses, hospitalization and death in their own or extended families. Family costs on hospitalization and reduced employment has further added to their criticality. An inadvertent impact of this has been on children, who have lost one or both parents, other earning members in the home, increased poverty and malnutrition, school closures and learning gaps, child labour, early marriages, lack of mobility, friendship and fun. The challenges faced by children has become a matter of national and global concern.

The announcement by the Govt of India and some state governments about the 'schemes to support children who have lost one or both parents' is a welcome measure. However, as the government systems will take time to roll out and children from vulnerable communities often get left out, gram Jagat along with the community piloted the initiative:

- 1. Two months dry ration will be provided to these children/family immediately.
- 2. By identifying all the schemes related to government / non-government / CSR, the involvement of these children / families should be ensured.
- 3. All children should be connected with the current "Child Welfare Scheme" of the government, especially the socially deprived children, who are likely to be left out
- 4. Make a plan for the development of these children at the level of Gram Jagat /institution and keep them connected, since the youth companions belong to the same panchayat where this survey is being conducted.
- 5. Tracking the development and safety of these children for a few years, creating opportunities for dialogue between the government and these children

Mask/Sanitizer Distribution -

Mask and Sanitizer distribution program undertaken by the Gram Jagat to create awareness about the recent pandemic (Covid-19) which has taken place and how it has effected the lives of every citizen. In light of this it was important to inform the people that how important it is to take proper precautionary measures and not just for any particular section of people like senior citizens or children for example, but for every section of society irrespective of their age or health.

The present condition of majority of citizens is quite grim. The virus has taken a heavy toll on the lives of every citizen especially those who belong from underprivileged sections of society, those who are poor and those who are homeless. Masks and hand sanitizers are the basic resources and essentials required for the prevention of Covid-19 and its spread but unfortunately these sections do not have access to even those basic essentials. These people due to their financial constraints and social position in society are not privileged enough to get access to these resources.

Gram Jagat with youth leaders distributed over 1000 mask and 500 sanitizer to elderly/children from socially excluded communities.

Republic Day program-

Republic Day/Independence day celebration program is a flagship event in the Gram Jagat to celebrate and recognize the importance of constitution and the rights and values. That day is celebrated widely in Bihar by Gram Jagat to recognize their faith and belief in the constitution. In the process, the Organisation initiated a rally in the school and aware the childrens about the constitution and their rights and values.

CLAY Youth Centre-

community leadership and youth (CLAY) is a flagship intervention from Gram Jagat. CLAY is a group of mushar community youth to work on their leadership to make their future bright. In the center, youths from mushar community gathered weekly and work according to the yearly leadership curriculum. Till now we have over 50 mushar youth associated with us and working to enhance their skill as well as looking for a better future ahead.
